**COMPANY PROFILE**

## WHO WE ARE

Kat is a specialized provider of electronic products and components, distinguished by deep industry expertise and a steadfast commitment to quality, reliability, and technical excellence. Since its inception, the company has focused on building a strong and credible presence in the electronics sector by delivering solutions that align with the demands of professional technical work and diverse electronic applications.

Our approach is grounded in specialization and practical experience, enabling us to understand market needs with precision and consistently deliver tangible value to our clients. Trust, transparency, and long-term commitment form the foundation of our relationships and guide every aspect of our operations.

## ABOUT KAT

Established in 2003, Kat has steadily expanded its footprint in the electronics domain, evolving into a trusted partner for organizations seeking dependable electronic components and related solutions. Over the years, the company has developed robust operational expertise and a clear understanding of market dynamics, allowing it to offer products that meet a wide spectrum of technical requirements.

Kat's growth is driven by consistency, specialization, and a dedication to service excellence. This commitment reflects the company's professional standards and reinforces its position as a reliable and respected player within the industry.

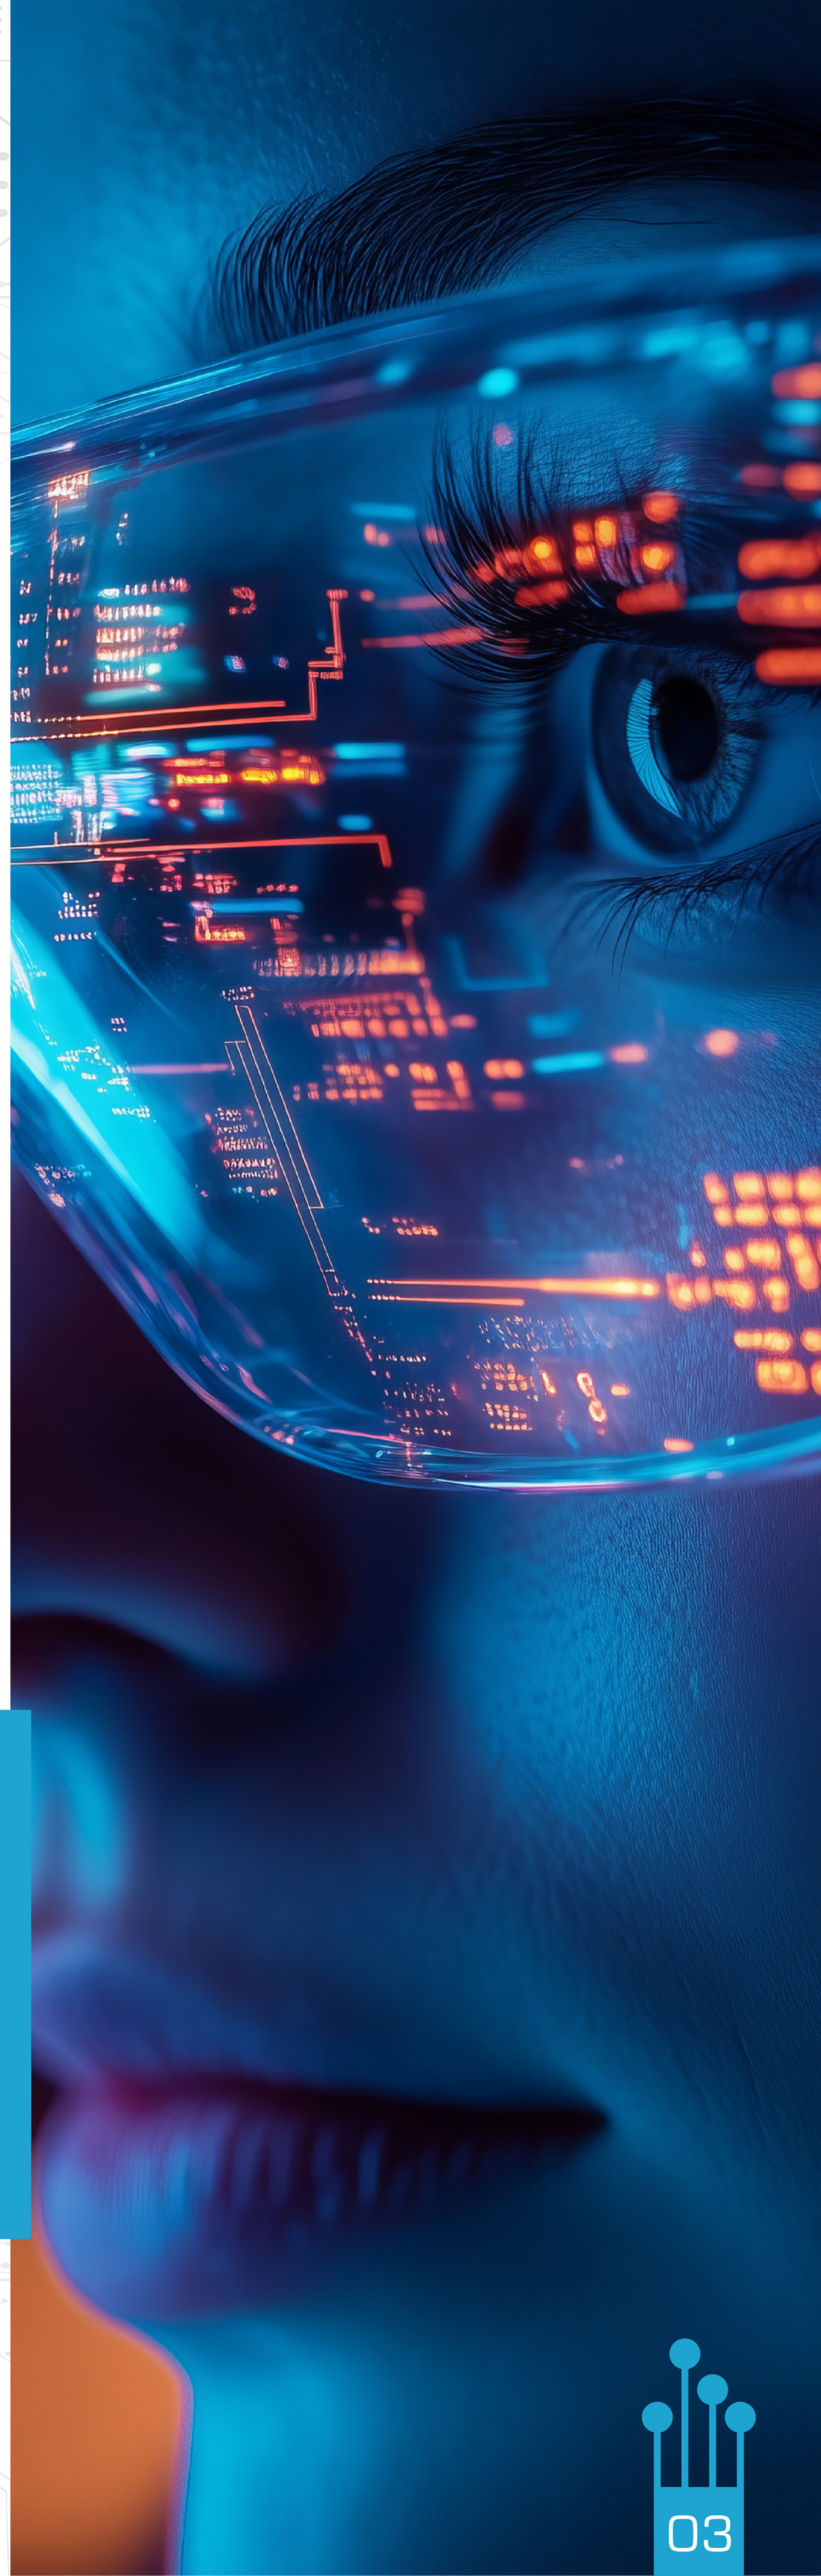

## OUR VISION

To become one of the most trusted and distinguished names in the electronics and components sector by consistently delivering high-quality products and services that embody professionalism, reliability, and long-term commitment.

## OUR MISSION

To provide specialized electronic solutions that address customer needs with efficiency and dependability, supported by a strong focus on quality, product diversity, and sustainable relationships built on trust and technical expertise.

## OUR VALUES

Quality — We deliver reliable, rigorously selected products that establish a foundation of trust and continuity with our clients.

Commitment — We operate with a strong sense of responsibility, ensuring our performance reflects professionalism, clarity, and dedication.

Continuous Improvement — We adapt proactively to market developments and continuously enhance our offerings to align with evolving industry demands.

Customer Focus — We place customer needs at the center of our priorities, ensuring a smooth, transparent, and effective experience at every touchpoint.

## WHAT SETS KAT APART

- Extensive Experience — Since 2003, Kat has built deep practical expertise and a strong understanding of market requirements, enabling us to deliver solutions that align with real-world technical needs.
- Clear Specialization — Our focus on the electronics domain ensures precision, depth, and strength in our product portfolio and technical capabilities.
- Reliable Business Approach — We operate with professionalism and consistency, fostering stable, long-term partnerships with our clients.

# OUR PRODUCTS & TECHNICAL SOLUTIONS

Kat provides an integrated portfolio of electronic products and technical solutions designed to meet the diverse needs of the electronics sector—from foundational components to advanced development platforms and specialized sourcing services.

## ● Electronic Components

We supply a comprehensive range of components used in designing, building, and operating electronic circuits and systems. Our portfolio includes resistors, capacitors, diodes, transistors, integrated circuits, microcontrollers, and other key elements that support a wide variety of electronic applications.

## ● Measurement & Testing Equipment

Kat offers a selection of high-precision measurement and diagnostic devices, including multimeters, oscilloscopes and signal generators. These products are sourced from trusted global brands such as Hantek, UNI-T, ZOYI, Sanwa, and BK Precision.

PROFESSIONAL TOOLS

**Pro'sKit®**  
Professional Tool Solutions Since 1991

## ● Development Platforms & Display Solutions

Kat supplies widely used development platforms such as Arduino and Raspberry Pi, along with LED display solutions in various resolutions (P1.8, P5, P10). We also offer selected networking products, power solutions, and tailored sourcing services, including secure procurement from China.

## ● Trusted Global Brand

We are committed to providing products from internationally recognized manufacturers, ensuring reliability and confidence across all technical categories. Our portfolio includes brands such as UNI-T, Hantek, ZOYI, Pro'sKit, Sanwa, BK Precision, Yaxun, Goot, Arduino and Raspberry Pi.

## POWER SOLUTIONS

Kat provides a range of power solutions that support the needs of technical projects and operational applications, including batteries, inverters, and solar products, offering efficiency, reliability, and practical performance across different uses.

This direction reflects the company's commitment to providing solutions that keep pace with the development of modern energy technologies and support customer needs in a variety of technical and operational projects.

# TECHNOLOGICAL SERVICES

Kat acts as a strategic link for the industrial sector, specializing in identifying and securing precise technical requirements and raw materials that form the backbone of industrial development. It does not merely supply parts; it ensures the continuity of production lines through tailored sourcing solutions.

Through its experience in custom sourcing and supply, the company helps clients access the right products and solutions in line with the nature of their projects and their technical and operational requirements.

## OUR SUPPORTING SERVICES

Beyond product supply, Kat delivers a range of value-adding services designed to support customers throughout their technical and operational needs:

- Technical support and specialized consultation
- Supply of components based on specific technical requirements
- Sourcing and importing customized orders from China
- Assistance in selecting the most suitable products for project specifications
